EXPERIENCE

Jr. Frontend Developer

ANS Commerce

(February 2022 - Currently Working)

I worked as a Jr. Frontend Developer in ANS Commerce where I contribute to developing Kartapult, Kartapult is an omnichannel marketing platform with creative intelligence and autonomous ad buying capabilities that optimizes ads across Facebook & Google.

Frontend Developer

Vasitum Inc- Full Stack Recruitment Automation Platform

(November 2021 - February 2022)

I worked as a Frontend Developer for Vasitum, where I contributed by developing a chrome extension that helps recruiters to store candidate resumes at one place i.e. Vasitum Company Databank. It will help recruiters by scraping candidate profiles from Naukri and timesjobs portal and getting candidate resume link and uploading candidate resume to their vasitum recruiter's account.

React Developer

Lyzer Analytics (Visual Analytics for eCommerce)

(March 2021 - October 2021)

Lyzer.io helps you with a quick go-to-market, gathering better data and boosting revenue. It is a unique product analytics tool completely focused on your most important asset – “Products”. It helps in maintaining the one source of truth about your products either related to copy & content or inventory & sales. This deep understanding of your products helps you in decision making which in return takes your brand to the next level.
